CONTENTS

Special Issue: Vibrational Spectroscopy and Structure of Molecular Systems — Proceedings of the first National Conference on Molecular Spectroscopy with International Participation, Wrocław, Poland, 28–30 October 1991

Preface ix

High-resolution rovibrational spectra
J. Konarski (Poznań, Poland) 1

A new expansion of the rovibrational energy of diatomic molecules
M. Molski (Poznań, Poland) 13

Force constants for homonuclear molecules from model charge density
K. Tkacz and W.S. Ptak (Kraków, Poland) 23

Ab initio molecular orbital calculations of the infrared spectra of interacting water molecules. Part 2. Complexes of water with carbon monoxide and nitrogen
T.D. Mokomela, I. Rencken, G.A. Yeo and T.A. Ford (Johannesburg, South Africa) 33

Raman and resonance Raman scattering of rotational dynamics, orientational order and molecular geometry of thin organic films
N. Kirov and I. Dozov (Sofia, Bulgaria) 55

Vibrational spectra and structure of mono- and polysaccharides
R.G. Zhbankov (Minsk, Belarus) 65

An infrared spectroscopic study of the structural phase transition in the perovskite-type layer compound $[n\text{-}C_{16}H_{33}NH_3]_2CoCl_4$
G. Ning, Z. Guangfu and X. Shiquan (Changchun, People's Republic of China) 85

Simultaneous observation of ν(O–O), ν(Co–O_2) and δ(CoOO) in resonance Raman spectra of five- and six-coordinate dioxygen adducts of Co(TPP-d_8)
A. Wesełucha-Birczyńska (Kraków, Poland), K. Nakamoto (Milwaukee, WI, USA), L.M. Proniewicz (Kraków, Poland) 95

Evidence for a ketene intermediate in the photochemical transformation of matrix-isolated *o*-nitrobenzaldehyde
S. Kuberski and J. Gębicki (Łódź, Poland) 105

Thin film transmission spectra of liquid $CDCl_3$ in the infrared
M.A. Czarnecki, J.P. Hawranek and W. Wrzeszcz (Wrocław, Poland) 111

Vibrational and reorientational relaxation in liquid *tert*-butyl bromide and *tert*-butyl bromide-d_9
R. Szostak and J.P. Hawranek (Wrocław, Poland) 123

Interaction-induced light scattering in atomic fluids — a two-body contribution studied by MD simulations
M. Gruszka and Z. Gburski (Katowice, Poland) 129

Is there a hydrophobic hydration in aqueous tetraalkylammonium salt solutions? An infrared study
Z. Kęcki and P. Drykański (Warsaw, Poland) 135

The use of SERS to probe the adsorption and oxidation of *o*-aminophenol on the silver electrode
A. Kudelski and J. Bukowska (Warsaw, Poland) 145

Surface-enhanced Raman scattering spectra as a probe of adsorbate–surface interaction
J. Bukowska (Warsaw, Poland) 151

Evidence for single-minimum potentials for intramolecular hydrogen bonds of substituted picolinic acid *N*-oxides
Z. Dega-Szafran, M. Grundwald-Wyspiańska and M. Szafran (Poznań, Poland) 159

A new outlook on the nature of short intramolecular non-bonded contacts between 6C–H $\cdots$ O5′ in the crystals of pyrimidine nucleosides and their salts
M.D. Bratek-Wiewiórowksa, M. Alejska, J. Sarzyńska, K. Surma, M. Figlerowicz and M. Wiewiórowski (Poznań, Poland) 167

Infrared spectra of CF_3CCH complexes with various proton acceptors in liquid argon
G.V. Antonenko, T.D. Kolomiytsova, V.A. Kondaurov and D.N. Shchepkin (St. Petersburg, Russian Federation) 183
IR study on double hydrogen bonding in dichloromethane
J.Cz. Dobrowolski, M.H. Jamróz and A.P. Mazurek (Warsaw, Poland) 203
Infrared evidence for CO_2 electron donor–acceptor complexes
J.Cz. Dobrowolski and M.H. Jamróz (Warsaw, Poland) 211
Mid-infrared study of the polymorphism of 4,4'-di-*n*-butyloxyazoxybenzene
M. Godlewska (Kraków, Poland), A. Kocot (Katowice, Poland), E. Sciesińska and J. Sciesiński (Kraków, Poland) 221
Structure elucidation of organic compounds aided by the computer program system SCANNET
B. Guzowska-Swider and Z.S. Hippe (Rzeszow, Poland) 225
Fermi resonances in the vibrational spectra of $CsHSeO_4$ crystals
H. Ratajczak, A.M. Yaremko and J. Baran (Wrocław, Poland) 235

Short Communications

Spontaneous hydrogen-atom transfer upon ionization: characterization of enol radical cations
J. Gębicki, A. Marcinek, J. Michalak and J. Rogowski (Łódź, Poland), T. Bally and W. Tang (Fribourg, Switzerland) 249
Raman study of the electrolyte effect on the resonance intermolecular coupling and the Fermi resonance of liquid water
A. Sokołowska (Warsaw, Poland) 257
